Question	1	How will you know if the minimum of 10 have been received if it goes straight to your supervisor?
Response	1	You can see that the responses have happened(How will you know if the minimum of 10 have been received if it goes straight to your supervisor?)
Response	1	PSG responses go straight to your supervisor. TAB response numbers are managed by the foundation doctor (although you can't see the contents until your supervisor has released them in the anonymised report).(How will you know if the minimum of 10 have been received if it goes straight to your supervisor?)
Question	2	Do we need to do a PSG and a TAB in both foundation years? Or can we do both in F1 and don't need to do them in F2?
Response	2	Yes , you need to do 1 TAB and 1 PSG in both F1 and F2(Do we need to do a PSG and a TAB in both foundation years? Or can we do both in F1 and don't need to do them in F2?)
Question	3	Do we need to do a PSG and TAB in both foundation years? Or can we do both in F1 and not need to do either in F2?
Question	4	For the PSG what do you define as senior, please can you clarify the grades for medical, nursing, and pharmacy staff. Thank you
Response	4	Your supervisor will decide as they send the tickets. It will be a more senior clinician, consultant, SAS doctor but NOT and F2 or core trainee
Question	5	Theres only one consultant on my ward who is also my CS because the locum consultant has left. Can i still do the PSG in this rotation or would you recommend doing the TAB in this rotation and the PSG in the next rotation?
Response	5	I would discuss with the supervisor as they may wish to include senior nursing and pharmacy staff
Response	5	PSG is multiprofessional and does not have any specific requirements in terms of responders
Question	6	If you are based in a specific medical ward e.g. gastro but you have frequent on calls in general medicine, can you involve your gen med colleagues in TAB / PSG?
Response	6	I would suggest the TAB could be with anyone you work closely with. The CS will decide who to send the PSG forms to
Question	7	employee assistant program is not in all 4 nations. other nations have their own support mechanisms
Question	8	The portfolio mentions categorizing pharmacists and foundation doctors in the 'Allied Health Professional/Other team member' category. However, when I click on the drop-down menu it gives a separate category for pharmacists and foundation doctors. Please could you kindly advise me on the correct category for pharmacists and foundation doctors, many thanks.
Response	8	FDs are in this part of the list because they are not 'more senior doctors'

Question	9	Can you add more people later after you've submitted the initial 10 people for the TAB?
Question	10	Can I collect responses for a TAB from people I have worked with across two placements? Or does it have to be all people from one placement?
Question	11	how many responses are required for PSG?
Question	12	what if we dont get a full 10 replies in a single placement?
Response	12	you need to repeat it in the next placement
Question	13	Ukfpo website says needs 2 consultants for the PSG?
Response	13	Ideally 2 consultants but the CS will make this decision. There may only be 1 consultant so the CS may ask a senior nurse(Ukfpo website says needs 2 consultants for the PSG?)
Question	14	Can you do tab and psg in the same rotation? If not which one would you recommend to do first?
Question	15	Can the one cons for your psg be your CS?
Question	16	How many psg do you need as an fy1
Response	16	A minimum of 1 PSG round is required per grade of training.
Question	17	can HCA do tab forms
Question	18	Apologies, I would like to clarify my question, the options in the drop-down list are 1. Consultant/Trained GP. 2. Doctor (more senior than F2) 3. Senior Nurse (band 5 or above) 4. Allied health professional/Other team member 5. Pharmacist 6. Foundation doctor However, the portfolio instructions say to put F2s and pharmacists under the allied health professional category.
Question	19	If a foundation doctor is doing an extension do they have to do another TAB if they previously did one
Response	19	At least one satisfactory TAB is required for an ARCP outcome 1 or 6
Response	19	For extensions this will be decided on an individual requirements bases
Response	19	I suggest your program director will advise you on this
Response	19	*basis
