

Foundation Programme 2015 Recruitment Stats and Facts

Interim report 20 April 2015

Summary information for FP and AFP 2015 recruitment

1. **Applications submitted:** Before applicants can access the online application form they must be nominated by a UK medical school or the UKFPO's Eligibility Office, and then enrol in the recruitment round which involves creating an FPAS account and confirming they are a nominated applicant. A total of 8,283 applicants were nominated, with 8,141 enrolling and 8,119 submitting applications. Of the 8,119 who submitted applications, 1,395 applied to both the Foundation Programme (FP) and the Academic Foundation Programme (AFP) commencing in August 2015 (FP 2015 and AFP 2015 respectively).

Table 1: Applicant profile comparison – 2014 and 2015

	2014	2015
Applicants nominated	8082	8283
Applicants enrolled	8032	8141
% nominated who enrolled	99.4%	98.3%
UK nominees not enrolled	25	136
Non-UK nominees not enrolled	25	6
Total nominees who did not enrol	50	142
Applications submitted	7974	8119
% enrolled who submitted applications	99.3%	99.7%
UK enrolled not submitting applications	55	12
Non-UK enrolled not submitting applications	3	10
Total enrolled not submitting applications	58	22

2. **AFP 2015 recruitment:** There were 510 AFP vacancies across the UK. 2,146 AFP applications were submitted by 1,395 individuals: 53.8% applied to two academic units of application (AUoA). After completing a national application form with local variations through the Foundation Programme Application System (FPAS), AFP applicants followed local selection processes depending on which AUoA(s) they applied to. There was a single national offers date, followed by three cascade offer dates. After the third cascade, AUoAs were at liberty to contact applicants directly in an attempt to fill the final few places – this is referred to as the 'mop-up' in the table below.

Table 2: AFP 2015 fill rate

Offer stage	No. accepted	Fill rate
Initial offers	378	74.1%
1 st cascade	94	18.4%
2 nd cascade	26	5.1%
3 rd cascade	3	0.6%
'Mop-up'	4	0.8%
Total	505	99.0%

Five AFP programmes were left unfilled and were converted to FP programmes for inclusion in the FP allocation process.

3. **FP 2015 vacancies filled:** There were 7,086 FP vacancies in addition to the AFP vacancies discussed above. 100% of FP vacancies were filled during the national FP allocation on 5 March 2015.
4. **Oversubscription:** FP 2015 was oversubscribed and applicants were placed on either the primary or reserve list depending on their total application score:

- a. **Primary list:** 90.5% of the 7,086 applicants on the primary list were allocated to one of their top five foundation schools. The cut off score for the primary list was 68.33. There were five applicants with this score, but only three places left. Two people were randomly allocated to the reserve list.
- b. **Reserve list:** 352 applicants were placed on the reserve list, including 302 current UK students and 50 other applicants. Reserve list applicants will be allocated in batches to vacancies which arise due to withdrawals and failed finals. Batch allocations will take place on 28 May, 30 June and 15 July.

5. **Eligibility Office:** The UKFPO's Eligibility Office processed 606 applications. Of those, 460 were eligible to apply with 421 submitting FP applications. Of the 421, 249 were fully eligible and the others were eligible subject to providing evidence of their right to work in the UK, passing the clinical assessment or passing PLAB (or any combination of the three).

Of the total 606 who applied to the Eligibility Office, 236 (38.9%) were/are students of non-EEA medical schools, 345 (56.9%) were/are students of EEA medical schools and 25 (4.2%) were students of UK medical schools who graduated prior to 4 August 2013.

6. **Eligible applicants who need work permits:** There were 23 eligible applicants who had not provided evidence of their right to work in the UK by the stated deadline. As the Foundation Programme was once again oversubscribed these applications were not considered and the applicants were withdrawn from the national process.
7. **Clinical skills assessments:** 204 Eligibility Office applicants graduated more than two years before the start of FP/AFP 2014 and were required to take the clinical assessment. Of these 100 sat the clinical assessment with the others being withdrawn for other reasons, failing to pay the fee or not attending. Of the 100 who attended, 65 (65%) passed and 35 (35%) failed the assessment. The cost was £850 per assessment paid by each applicant direct to the clinical assessment provider. The clinical assessment was delivered by the University Hospital of South Manchester.
8. **Failure to meet the person specification:** 39 applicants, 20 from UK medical schools and 19 from non-UK medical schools, were identified as having an exceptionally low SJT score of 3.5 or more standard deviations below the mean. In accordance with the process for handling exceptionally low SJT scores, the affected applicants were withdrawn from the process prior to the FP allocation for failing to meet the national person specification and invited to attend a face to face review of their SJT outcome on 24 March 2015. Twenty-nine applicants chose to attend the face to face review, 8 applicants were reinstated. For UK students, the heads of schools and pastoral care contacts at the applicants' medical schools were informed prior to the applicants being notified.
9. **Special circumstances:** 211 applicants were approved for pre-allocation to a particular foundation school based on special circumstances. Of these, 186 applicants are on the primary list, 25 are on the reserve list and none have withdrawn at the time of producing this report.

Table 3: Special circumstances granted by criterion

Criterion	Description	Number	%
1	Parent/legal guardian of child under 18	124	58.8%
2	Primary carer for disabled person	19	9.0%
3	Medical condition requiring local treatment	55	26.0%
4	Educational needs	13	6.2%

Table 4: Special circumstances granted by gender

Gender	Number	%
Female	122	57.8%
Male	85	40.3%
Did not disclose	4	1.9%

Detailed information for AFP 2015 recruitment

AFP 2015 applications

There were 510 vacancies across the UK for AFP 2015.

Number of AFP applications submitted	2146	
Number of individuals who applied for AFP	1395	
Number who submitted one AFP application	644	46.2%
Number who submitted two AFP applications	751	53.8%

Table 5: AFP applications by medical school

Yorkshire and Humber	63	125	1:2	100%
Total	510	2146	1:4	99%

Local AFP and FP applications

55% of UK students who applied for an academic programme applied to the AUoA most local to their medical school for one of their AFP applications.

If we exclude those applicants who accepted an AFP offer, a little over 41% of UK students selected the foundation school associated with their medical school as first preference for their FP application.

The table below shows the percentage of applicants from each UK medical school who applied to the most local AUoA if they applied for an AFP and the percentage who selected the foundation school associated with their medical school as first preference for their FP applications. Those applicants who accepted an AFP offer are excluded from the percentage for FP applications.

Table 7: Percentage local AFP and FP applications

Medical school	% applied to local AUoA	% selecting local foundation school as first preference for FP
Brighton and Sussex Medical School	75.0%	35.3%
Cardiff University	37.9%	47.2%
Hull and York Medical School	62.9%	36.7%
Imperial College London	68.5%	23.5%
Keele University	25.0%	31.9%
King's College London	80.5%	40.4%
Newcastle University	47.7%	53.8%
Norwich Medical School	56.3%	31.4%
Peninsula College of Medicine and Dentistry	41.7%	19.4%
Queen Mary University of London	82.5%	26.7%
Queen's University Belfast	68.8%	83.5%
St George's University of London	79.1%	39.9%
The University of Edinburgh	74.4%	65.4%
The University of Sheffield	76.0%	52.0%
The University of Warwick	32.4%	25.7%
University College London	65.0%	30.2%
University of Aberdeen	81.6%	76.3%
University of Birmingham	38.8%	24.2%
University of Bristol	20.6%	24.6%
University of Cambridge	56.1%	26.8%
University of Dundee	45.5%	68.0%
University of Glasgow	68.9%	70.2%
University of Lancaster	33.3%	31.3%
University of Leeds	58.3%	59.5%
University of Leicester	32.6%	22.9%
University of Liverpool	42.6%	53.1%
University of Manchester	58.8%	45.5%
University of Nottingham	45.3%	34.5%
University of Oxford	38.6%	17.6%
University of Southampton	35.1%	28.7%
University of Swansea	31.3%	36.1%
UK total	55.0%	41.4%

Note: Each medical school is associated with a single 'local' foundation school for FP applications. For example, Keele University does not include those applicants from Keele University who selected other foundation schools in the West Midlands as their first preference.

Detailed information for FP 2015 recruitment

Reserve list applicants

There were no reserve list applicants from Cambridge, Lancaster or Swansea medical schools. Of the 352 applicants on the reserve list following the national FP allocation on 5 March 2015, 300 were from the remaining UK medical schools and 52 applied via the Eligibility Office.

FP 2015 application results by medical school

The table below shows the number of final year medical students from each UK medical school who submitted an FP application (excluding those who had accepted an AFP offer or been withdrawn prior to the national allocation date); the number allocated on the primary list; how many were allocated to one of their top five preferences; how many got a lower choice than fifth; the percentage who were allocated to their first preference and the percentage allocated to one of their top five preferences.

Table 8: FP application results by medical school

Medical School	Students applied	Allocated on primary list	Allocated to top 5 prefs	Allocated to lower than 5th pref	% allocated to 1st pref	% allocated to top 5 prefs
Brighton and Sussex Medical School	102	100	93	7	69.0%	93.0%

This table includes FP applicants not withdrawn at the time of the national allocation on 5 March 2015. Applicants who accepted an AFP offer earlier in the process are not included.

* UK Med School used in FP 2015 for UK graduates applying through the Eligibility Office

FP 2015 application results by foundation school

The information below includes for each foundation school the number and percentage of applicants who selected it as their first preference, the fill rate, the number and percentage of applicants allocated as one of their top five preferences, the percentage of applicants allocated as their first preference and the lowest scores for allocated applicants. The lowest score is shown for both allocated applicants excluding those pre-allocated on the grounds of special circumstances, and for applicants pre-allocated to the foundation school.

Table 10: FP application results by foundation school

Unit of Application	Places	1st pref apps	% 1st pref apps	Non-1st pref spaces	No. allocated applicants	% allocated via spec circs	% fill	No. allocated to top 5 prefs	% allocated to 1st pref	% allocated to top 5 prefs	Lowest pref allocated	Lowest allocated score (excl. s/c)	Lowest s/c allocated score

This table includes FP applicants not withdrawn at the time of the national allocation on 5 March 2015. Applicants who accepted an AFP offer earlier in the process are not included.

	undersubscribed by less than 20%
	significantly undersubscribed
	oversubscribed by less than 20%
	significantly oversubscribed

SJT scores by medical school (all applicants including those subsequently withdrawn, excluding military students)

The table below shows the average, standard deviation, maximum and minimum SJT scores achieved by ALL applicants from each medical school.

Table 11: SJT scores by medical school

Medical School	FP 2015***				FP 2014				FP 2013			
	SJT score only (max 50)				SJT score only (max 50)				SJT score only (max 50)			
	Ave	Std Dev	Max	Min	Ave	Std Dev	Max	Min	Ave	Std Dev	Max	Min
