

Summary narrative: (at end of first placement)

- HLO1 – the accountable, capable and compassionate clinician
 - I have linked three mini-CEX which show I can take a history and examine a patient (FPC1). The patient with pancreatitis was quite unwell and I managed him with support from my registrar (FPC2). The elderly lady with the bowel obstruction was found to have stage 4 cancer and I sat in with my registrar as he communicated treatment options. I have read around this and done a reflection on my learning (FPC3&4). I then made the referral to palliative care and liaised with social services (FPC5 and social care).
 - I am confident in common procedures and have done a DOPs for inserting an arterial line. (FPC4)
 - I attended a teaching session on eating disorders and have done some eLfH modules on mental health assessment (FPC1 and mental health)
 - In the next rotation I will attend an ALS course to consolidate my acute skills (HLO2) and will ensure I obtain a mini-CEX for assessing a mental health conditions.

Summary narrative: (at end of 2nd placement)

- HLO2 – a valuable member of the healthcare team
 - My TABs was good (FPC6-8).
 - I attended a leadership course and reflected on this (FPC6 and 8)
 - I was becoming tired with shiftwork and read the article on good sleep hygiene. I have been trying to follow the advice. (FPC7)
 - I have been attending QI meetings and am undertaking an audit or mental health presentations on MAU (FPC9)
 - I have delivered a teaching session on acute coronary syndrome. I did not get very good feedback but have reflected on this and I know how to improve my teaching. (FPC 10)

Summary narrative: (at end of 2nd placement)

- HLO1 – the accountable, capable and compassionate clinician
 - ...referral to palliative care and liaised with social services (FPC5 and social care).
 - I am confident in common procedures and have done a DOPs for inserting an arterial line. (FPC4)
 - I attended a teaching session on eating disorders and have done some eLH modules on mental health assessment (FPC1 and mental health)
 - I passed my ALS course (FPC2) and have assessed and managed a patient with suicidal intent (see CBD) (FPC2 – mental health). I also clerked a girl with anorexia (CBD) and discussed her with the crisis team (see reflection). She did not have capacity and was admitted for NG feeding. (FPC FPC1-5 mental health).
 - I have attended a number of departmental teaching sessions and core teaching which has helped me to manage the conditions I see in MAU. See learning log (FPC1-5)
 - I have liaised with care homes over a number of elderly patients to gather information and arrange discharge. (Social care, FPC1,5).
 - I put in a chest drain (see DOPs) and feel confident in initiating and undertaking the GMC sore procedures (FPC4)
