Dr Ellen Weber

Ellen specialises in emergency medicine based at University of San Francisco California. She is the Editor-in-Chief of the Emergency Medicine Journal. Ellen's research and professional interests are broad and include being visiting faculty to support the development of Tanzania's first residency program in emergency medicine, at Muhimbili National Hospital in 2013. She has returned twice each year since then to mentor emergency medicine residents and junior faculty members conducting research in the field. @emjeditor

Tony is a world-leading specialist in emergency medicine: founder of UK-Med, past president of WADEM, medical director of NHS Nightingale Hospital North West during the COVID-19 crisis and Emeritus Professor of International Emergency Medicine at the HCRI. His recently published memoirs 'Frontline' captures his extensive experience in emergency response and his 'retirement' has seen him busier than most find themselves in their early careers. @anthonydredmond

Prof Tony Redmond

Taj is a consultant in Emergency Medicine at the Leeds Teaching Hospitals NHS Trust and Immediate Past President of the Royal College of Emergency Medicine (2016 – 2019). He is also the Board Chair for Europe on the International Federation for Emergency Medicine. He has recently led initiatives to help develop Emergency Medicine in his country of birth, Pakistan and is Chair of the International Committee of PSEM as well as supporting other neighbouring countries where the specialty is still evolving. @tajekbhassan

Dr Taj Hassan

Prof Michael Eddleston

Michael's research focuses on stopping people dying from poisoning, incorporating hospital based RCTs and community based intervention trials, in combination with policy and advocacy work. He directs the Centre for Pesticide Suicide Prevention and co-direct NIHR RIGHT4: Preventing deaths from acute poisoning in LMICs at the University of Edinburgh. @CentrePSP

Jihoon is a strategist and programmes officer at the Tropical Health Education Trust (THET). THET supports health partnerships between UK and overseas health institutions such as hospitals, universities and research centres to deliver health worker training programmes based on the needs of the overseas partner institution. @THETlinks

Mr Jihoon Yoo

Ms Michelle Hanegård

Michelle is Director of Learning & Capacity Building of UK-Med, a Manchester based NGO and WHO verified EMT. She has led preparation training of UK-Med Register Members and designed, developed, delivered, and supported capacity building activities for global partners as part of UK-Med and UK EMT responses and partnerships since 2020. Previously, Michelle has built and led capacity building and training programmes in Denmark, Ghana, Kenya and Sri Lanka @UKMed

Mr Colin Macalindin

Colin trained as a paramedic and then an advanced clinical practitioner, currently based in Bristol. He undertaken humanitarian work in Sri Lanka and Sierra Leone and spent time working with a Kenyan hospital via the Dharura Global Emergency Care Bristol-Nanyuki partnership. @EDBRIGlobal

Justine's focus is on research to inform development of health systems that deliver quality care in LMICs. She regularly works with policy makers, including the WHO Her career spans a multitude of roles: from editing a Lancet journal, freelancing for the BBC and obtaining high profile grants through to an honorary position at Wits School of Public Health and Stellenbosch University in South Africa and developing the NIHR Global Health Research Unit on Global Surgery @drjackoids

Prof Justine Davies

Ram is the Health Director of UK-Med, a Manchester-based NGO and WHO verified EMT. He has been the Health technical lead on more than 30 UK-Med and UK EMT deployments globally since 2021. He was Team Lead and Medical Coordinator for the eight month long UK EMT Beirut Port Blast response and has worked for the ICRC in Syria, Somalia and South Sudan. Ram worked in Guinea throughout the West African Ebola outbreak in 2014-15. @UKMed

Dr Ram Vadi

Mr Andrew Fryer

Andrew is the International Manager for the Royal College of Emergency Medicine (RCEM). He, along with the Global Emergency Medicine committee, co-ordinates and delivers RCEM's vision to be a world-leader in the development of global emergency medicine that is clinically excellent, evidence-based, compassionate and equitable. Current programmes are being developed in countries which include: Uganda, Pakistan, India and Syria @RCEMGlobal

Gillian has an undergraduate degree in international relations and is Head of Faculties at the Royal College of Surgeons of Edinburgh. Her work as Faculty Development Manager, Faculty of Remote, Rural and Humanitarian Healthcare (FRRHH) has seen her develop the faculty over the past 4 years and create solid collaborations with like-minded organisations and institutions. @RCSEdFRRHH

Ms Gillian Mitchell

Dr Anisa Jafar

Anisa was one of the founding members of the Global Emergency Care Collaborative (GECCo). She is an ST6 in Emergency Medicine in the North West of England and an NIHR Academic Clinical Lecturer. Her research interests span a variety of global health areas however her current focus is developing the evidence base for the bilateral benefit of global health engagement by UK emergency care practitioners @EmergeMedGlobal
