Top reasons to choose Clinical Oncology

- 🌟 **Make a real difference** – Treat patients with cancer using a combination of innovative therapies, including radiotherapy and systemic treatments, with the opportunity to deliver curative care
- 👥 **Build meaningful relationships** – Enjoy continuity of care and support patients through some of the most important moments of their lives
- 🚀 **Be part of a rapidly evolving field** – With advances in technology, research and treatment options, Clinical Oncology is constantly changing
- 💡 **Complex and varied work** – Manage challenging cases, have meaningful conversations & combine clinical decisions with cutting-edge science
- 🌟 **Teamwork in Oncology is great!** The culture of working within the Oncology department is really supportive

If these reasons appeal to you, Clinical Oncology could be the perfect choice!
